Wholesale Soap Establishment!
AMERICAN
CREAM SOAP COMPANY,
Incorporated by Act of the Legislature of the State of New York, and secured by Letters Patent under the LAWS OF THE U. STATES, A. D. 1851.
CHAS. W. DENNISON & CO.
PROPRIETORS FOR THE STATE OF MAINE,
C. W. D. & Co. are now prepared to manufacture and offer to the trade and consumers the Soaps of the American Cream Soap Co, in all their varieties, at their Factory,
Nos. 31 & 33 UNION ST., Portland, Me.,
CONSISTING OF
American Cream Soap in Bars, Laundry and Manufacturers' in Barrels and Cans, Toilet, Shaving, Shaving Cream, Transparent, Cream Soap Preparation, &c., &c.
These Soaps are presented to the public, after having been thoroughly tested by ourselves and friends, as the best Labor Saving Articles ever discovered, and we offer them to the public as every way worthy of their confidence.
They do the work of the Laundry in simply warm water, either Soft, Hard, or SALT; dispensing with Boiling or Pounding and the Washboard—consequently a large amount of Fuel and wear and tear of clothing is saved, and not one fourth the amount of Labor is required to do the washing of a family. The tendency of these Soaps is to soften the clothes and loosen the hold of the dirt, without injury. Washing is done by simply rubbing the Soap on the parts of clothes most soiled, and placing them in warm suds, sufficient to cover them—there let them remain a few hours, (or all night if convenient,) then, with a slight hand rubbing and good rinsing, they will be perfectly clean, and without injury to the most delicate fabric. Merinoes, Silks, Shawls, &c., may be washed with perfect safety Cotton Goods, Prints of any color that will fade in water alone, when washed with these Soaps, according to the directions, will not change but remain firm, and the colors rendered more brilliant. For washing Woollens, Prints, Gilding, Mirrors, Maps, Paintings, Lamps, Silver Ware, &c., &c., these Soaps are superior to any in the market. The cost of these Soaps is no more than of those ordinarily used, and besides this, the great wear and tear of clothing consequent upon the old method of hard rubbing upon a board, machine, pounding barrel, &c., &c., and the necessity of boiling, is wholly avoided.
We ask for this Soap a fair trial, wishing to trust to its own merits rather than resort to the publication of a long list of certificates from those who have used it wherever it has been manufactured, which we have in our power to do were it necessary.
For sale, Wholesale only, at 31 & 33 Union Street, Portland and retail by Grocers generally in city and country. Agents supplied on liberal terms. All orders addressed to C W D. & Co postpaid, Nos. 31 & 33 Union Street, Portland, Me., will receive prompt attention

TESTIMONIALS.
The following certificate from Dr John C. Warren of Boston, was given 17 years since but will not lose its force
Boston, Jan 6, 1853.
Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases I have taken pains to inform myself of the competency of Mr J F. Foster to supply the deficiency occasioned by the death of Mr Beath—After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur. I feel called upon to recommend him to my professional brethren and to the public as a person well fitted to supply their wants in regard to these important articles.
JOHN C. WARREN M D
The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia Mr James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us over twenty years) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business and the large number of individuals whom he has relieved in a variety of cases, render him, in our opinion, equal if not superior to any manufacturer of the article. His father, Rev Gideon Foster, of Charlestown, was master of the Prof his son in that line for upwards of twenty four years, during which period Mr Foster availed himself of the opportunity, and made application of Trusses to a great variety of cases, with great success, some of which were of a very complicated and distressing character.
It is well known to all who have occasion to wear a Truss, that its great excellence consists in its adaptation to the body at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skilful practitioner can apply it in such a manner as effectually and oftentimes radically cure the complaint.
Our experience has convinced us that Mr Foster has thoroughly attained this knowledge. The certificates of Dr J C. Warren, and other eminent surgeons which he has shown to us fully sustain the opinion we here express.

WILBOR'S COMPOUND OF
PURE COD LIVER
OIL AND LIME.
THIS valuable medicine which has received the sanction of the medical faculty, by whom it is regularly prescribed, and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of
CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA BRONCHITES, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.
Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, yet discovered while the chemical properties of the PHOSPHATE OF LIME are also well known to medicine as being peculiarly healing. In cases where ulceration has taken place on the lungs, this article has been found, by the most careful tests to supply the very ingredients necessary for the formation of cells, and the complete healing of this delicate part of the human system
This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste which renders it so repulsive, particularly to invalids—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry and a medicine has thereby been produced which is of inestimable value in a climate like our own
A long array of certificates might be given here to prove the efficacious character of this medicine but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence

Important Bargains Offered.

LOTS of Land for Rural Dwelling Houses, with large Fruit and Vegetable Gardens, adjoining the city mostly on the continuation of French St and Broadway and a street laid out 75 feet wide, in the range with Broadway, (as it runs from State Street to the Park) This street is laid out about 160 rods through my lands extending over the west end of Mt Pleasant. This land is north of and much higher than the Park having a commanding view of the city and surrounding country

Also land for Orcharding and Farming, on the new Stage Road to Oldtown running by Coombs Mills, situate beyond and near the first considerable elevation, having a view of some part of the city on its western side. This land is considered as good as the farm on which I live, where I have raised over 40 bushels of wheat to the acre, (as may be seen on the books of the P. A. Society,) and oats, hay and potatoes in that proportion. Some judgment may be formed also of my land for Fruit Trees on my lot near the city, by examining my bearing trees and our Fruit Nurseries

My land East of the Mills has a considerable growth of wood on it, and some timber for frames. We can go three turns a day, it being one of the easiest roads running out of Bangor

Liberal terms will be given on it, and the size of the lots made to suit purchasers

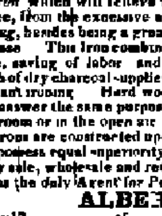
PATENT SELF HEATING
SMOOTHING IRON!



MANY improvements have been made since the beginning of the present century in lessening and facilitating the labor of men by machinery and other modern implements, but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron* which will relieve them, in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor and despatch, one cent's worth of dry charcoal supplies fuel for a whole days' constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters and Tailors' Irons are constructed upon the same principle and possess equal superiority

WHIG NOMINATION.

FOR GOVERNOR,

ISAAC REED,

OF WALDOBORO.

Whig Congressional District Convention.

The Whigs of the Fifth Congressional District are requested to send delegates to meet in Convention at Exeter, on THURSDAY, the 3th day of August next, at 11 o'clock A. M., for the purpose of nominating a candidate to represent said district in the next Congress.

Towns having 1000 inhabitants, and under, are entitled to two delegates; over 1000 and under 2000, four; over 2000 and under 3000, six; over 3000 and under 8000, ten; and over 8000 fifteen. The census of 1850 to be taken to determine the number of inhabitants. Per order of the Committee.

July 13th.

The Augusta Age is naturally indignant that the Whigs of Maine should in any instance consent to a union with other parties, for the purpose of electing Representatives and Senators opposed to the pro-slavery administration which now disgraces the country. It is not wonderful that such a union should be distasteful to the Age. In the course of a recent article the editor characterizes some recommendations that we have made in this connection, as "beautiful specimens of political morality, consistency and integrity." Perhaps they are—but they bear no comparison for beauty with some specimens recently afforded by the Age—for instance, where the editor, with immaculate "consistency" has attacked the national administration for its course upon the most vital question of the day, but still continues to support that administration and advocate the election of its friends to office.

The Age is principally troubled at the suggestion thrown out by us that more particularly in counties or districts where the Whigs cannot themselves elect, there should be a concert of action with other anti-Nebraska men to secure a proper expression of the public voice on *that* question at least. This, the Age thinks, is not honest nor consistent. We think differently. It is based upon the desire of insuring a defeat of the pro-slavery democracy, which cannot be done in this State, in any other way than by a union with those who agree in opposing slavery extension, wherever it is necessary to effect the desired object. As there is not to be a "fusion" of the parties who agree on this point, we assumed that where either of these parties could elect of its own strength, it would of course do so—whether Whig, Free-soil, or Free-democratic—and where neither is strong enough to face the common enemy, a union would be formed upon a fair and equitable division of the candidates. In this we can perceive nothing very dishonest or inconsistent—taking into view the fact that opposition to slavery encroachment is just now the one of the greatest practical questions of the day.

If we recollect aright, the Age was not extremely shocked at a similar "concert of action" between the Democrats and Free Soilers of Massachusetts, a few years ago, when it was assumed that certain "State reforms," in which they respectively agreed, were of an importance far transcending any mere questions of party politics. In that case, if we are not mistaken, the Democrats elected their own man when they could do so, and the Free-soilers did likewise—but where neither could elect alone, a union was effected against their common Whig enemy.

The Southern Senators were at first in considerable tribulation about the Fishery and Reciprocity Treaty, from an idea that under its provisions, the free negroes from the British islands of Jamaica and Barbadoes might come over and fish upon the coast of Florida, and near the Southern harbors, and perhaps carry off some of their slaves. An examination of the treaty, however, quieted their fears in this respect—as the right of British subjects to fish in American waters is limited to the latitude of 36 deg. north. It is now thought that Southern gentlemen, rather than risk a war with Great Britain, will consent to the ratification of the treaty; without insisting upon a fugitive slave clause for the Provinces.

Mr. Manley of the Gospel Banner, has resigned from the firm, his interest having been purchased by his former partner, Mr. Joseph A. Homan. Mr. Manley retires with the respect and best wishes of the fraternity. The Banner, under Mr. Homan's administration, will undoubtedly maintain its position as an able and popular journal. Mr. H. is an excellent business manager, and with a man of fine literary talent—Rev. Mr. Drew continues in the editorial department. The Banner will continue to wave.

One of the "Know Nothing" organs says that at least 165 of the 296 Electoral votes are sure for the Know Nothing candidate at the next Presidential election. If the strength of the organization is concentrated upon some one of the candidates nominated by the political parties, the effect would probably be as predicted. No man can receive northern votes, however, whose sympathies are not with freedom rather than slavery.

The files of the last volume of the Bangor Daily Whig and Courier, ending July 1st, 1854, are deficient in the numbers for July 2d, 1853, and January 30, 1854. Any friend who can furnish one or both of the papers of those dates will confer upon us a great favor, which we shall readily reciprocate. We wish to have the files entire before having them bound.

The magnificent circus establishment of Messrs. Spaulding & Rogers will be in town to-morrow, and will doubtless draw large audiences. This is the largest equestrian establishment that has ever travelled in the United States, and is accompanied by some of the most famous musicians of the country. Kendall's Brass Band, with Ned Kendall's bugle will alone offer sufficient attractions.

Gov. Baker of New Hampshire has vetoed two bills and a resolution, passed by the legislature during its recent session.

LAUNCHED. In Belfast on the 10th inst., from the yard of C. P. Carter & Co., a splendid freighting ship of about 700 tons, named "Persia," owned by the builders, Asa Faunce, and A. W. Johnson.

The amount of fishing bounties paid by the collectors of New England in 1853 was $374,593.34.

A man lately died in England whose estates are valued at seven million pounds.

The original name of Orr, the Angel Gabriel, is McSwish. He was born in Scotland.

It is stated that Mr. Henry Clark, of Lincoln England, has for some time been devoting his attention to the perfection of field-pieces which will discharge 1800 bullets in a minute, and such is the peculiar construction of the bore, that at 2000 yards' distance the bullets fall with mathematical precision 24 yards apart.

In Wayne county, Pennsylvania, in a circle of seven miles, there live thirteen families which boast the number of 195 children. They are distributed as follows: Jonathan Adams, 18; Jacob Kellum, 10; David Eaton, 15; Evan Brown, 15, James Adams, 14; Josiah Cole, 13; Thomas Todd; 29; John Phillips, 12; Oliver Bullings, 13; James Brown, 10; William Tyler, 10; Amos Tyler, 22; total, 195. Except Thomas Todd, none of these worthy citizens has had more than one wife.

The Dublin Freeman says—"Owen Duffy, of Monaghan county, is 122 years old. When 113 he lost his second wife, and subsequently married a third, by whom he had a son and a daughter. His youngest son is two years old; his oldest ninety. He still retains, in much vigor, his mental and corporeal faculties, and frequently walks to the country town, a distance of eight miles."

At a 'Fourth' celebration among the undergraduates of Browne University, the following was one of the regular toasts:

Maine—Her summers are fleet,
Her winters are long;
But her maids are sweet,
And her men are strong.

Although we are accustomed to think of heaven as distant, of this we have no proof.—Heaven is the union, the society, of spiritual, higher beings. May not these fill the universe?

As bees can breed no poison, though they suck the deadliest juices—so the noble mind, though forced to drain the cup of misery, can yield but generous thoughts and noble deeds.

No man flatters the woman he truly loves.

A man having published another "as a liar a scoundrel, and a poltroon," the latter complains that he does not spell poltroon correctly.

An old gentleman, always on the alert for the latest news from the Baltic fleet, made the usual inquiry of a wag. "The latest news from the Baltic," replied the wag, "is that the fleet is in *statu quo*." "Ah! how far is that from Cronstadt?" asked the innocent old soul.

PATENTS. The following is among the list of patents issued to New England men during the week ending July 11, 1854:

Russell D. Bartlett, of Bangor, for machine for making the heads of shovel handles.

HON. PELEG W. CHANDLER, of Boston, whose death was last week threatened by a disorder of the liver, is convalescent.

The deaths by cholera, in Boston, during the week ending Saturday, the 15th, were 21.—From all diseases 111.

OLDTOWN, JULY 14, 1854.

To the Editor of the Whig and Courier:

During the past week they have re-commenced getting in the West Branch drive, and opening the West Branch gates has caused the water to rise here about one foot, and makes a pretty good driving pitch in the river, greatly facilitating the rafting of logs from the booms, as the water before was getting to be "distressingly" low. Sawing logs into boards and dimension, and filling up the interstices with small lumber, such as clapboards, pickets shingles, and laths, is the order of the day, and the rapidity with which the operation is performed, shows that the mill-men know their business, and have a sufficiency of motive power, in the shape of water.

There is a doubt in the minds of some, whether the boom will hold all of the logs of the West Branch drive. They cannot come in under a week or ten days, and with proper diligence in rafting out, I think that room may be made for the whole drive, in the boom.

The people of our village were very handsomely serenaded Thursday night, by Clarke's Bangor Brass Band. They had intended to give a concert in St. James' Hall, but sundry of our good citizens thought that would be rather exclusive, and besides would not pay very well; so they set about taking up a contribution, and very soon collected enough to induce the Band to give a public concert in the open air, which they did to a very large and highly gratified audience, and after going through the programme, made the night merry with delicious music until the small hours of the morning, and at seven o'clock started on an excursion to Lincoln by the river steamer.

The contractors have re-commenced raising the rail-road bridge over Oldtown Falls, and we expect soon to be able to pass on foot to Milford.

Mention has often been made, by arrivals from the Pacific, of the capture of the barque Petrita, in the gulf of California, by the Mexicans; and some fifty on board of her taken to Guaymas, and afterwards transferred to Mazatlan. Many of those on board belonged in New England, and charged, as they were, with being fillibusters, on their way to join Walker, it was feared that extreme measures would be taken. By a letter written on board U. S. ship Portsmouth, it appears that all the Americans in the party have been liberated through the firmness of Capt. Dornin.

Among the passengers were Wm. Snelling, brother of Capt. Snelling, Congress Street Boston; Daniel Byrnes of South Boston; A. B. Clemens and H. Longley of New Hampshire; Peter H. Hayes of Rhode Island, and several others from the northern and western States. Through the active exertions of the American Consul and firm resolutions of the commander of the Portsmouth, all the passengers were delivered up, and on the 20th of May, all but three, among whom was Mr. Snelling, remained on board the Portsmouth, were transferred to the cutter W. L. Marcy, and sailed for San Francisco.

INTERESTING LETTER FROM MISSOURI. A St. Louis correspondent of the Cincinnati Gazette writes to that journal as follows, under date of the 3d instant:

In my last, I referred to the subject of slavery, as it appears in this State, and the effect it has in repelling emigration from the free States and in retarding improvements. A few more words on this subject may not be without general interest.

In 1850, Missouri had a white population of 595,149, and at the same time there were 87,[illegible]67. In 1840, the entire population of the State was 381,702. With the exception of St. Louis, there are no points of magnitude in the State, and the population of the counties, of which there are 105, is comparatively small, St. Louis being the only one that has over 20,000 inhabitants. But eighteen of the counties have a population of 10,000 and upwards. The slaves are generally in great numbers in the counties bordering on the Mississippi river, and in the interior of the State. These counties have been settled many years, and have assumed very much the appearance of settlements in Virginia and Kentucky. The northern counties bordering on Iowa, have very few slaves. It is true they are not yet thickly settled, but I apprehend the fact that slave property is so uncertain and insecure there has had something to do with it. That your readers may see how few slaves are held there, I append a list of the counties bordering on Iowa, and the free and slave population of each:—

Counties.	Whites.	Slaves.
Atchison,	1648	30
Nodaway,	2048	70
Gentry,	4197	50
Harrison and Davis,	7487	254
Mercer,	2678	14
Dodge and Putnam,	1935	21
Schuyler,	3232	55
Clark,	5023	564

This last county is on the Mississippi, and is an old settled county.

It has generally been supposed that slave labor could not be profitably employed so far north as Missouri. I heard this discussed somewhat in my travels through the State, and will give you the benefit of my observations on this subject. The great staple of slave labor culture in Missouri is hemp. Large quantities of this article are raised on the rich bottoms and new lands in the central and western portions of the State. It grows very luxuriantly, and presents a beautiful appearance to the traveler. It is cut in July and August, and, after being dried in the field, is dew-rotted in the fall, as our Yankee farmers used to dew-rot flax, and, during the winter, the slaves break it and prepare it for market. I could not hear of a single machine for the purpose of preparing the article for use. Everything is done in the primitive fashion, and the entire crop is got out and prepared "by hand." It takes the time of the slaves during the winter months, but as there is not much else for them to do during this time, it does not interfere with the other work on the plantations. Indeed, I heard some of the planters remark that their hemp crop was so much clear gain to them, as it did not interfere with the other work of their plantations.—The first work in the spring is to plow the hemp land. This is done, and the hemp sowed before it is necessary to prepare for their corn crops. When once sowed, it takes care of itself till ready to cut. By that time the corn is planted, ploughed, and turned off. The hemp is then cut and put away, ready to work at during the winter, before it is time to commence gathering the corn, and during the winter, when there is nothing else pressing, it is prepared for market.

Hemp now brings a high price, it is said, in consequence of the supply from Russia being cut off by the war. From $140 to $150 per ton is the range the present season. I have heard intelligent planters say that a slave would make from $400 to $700 per year in the hemp raising business. This, in addition to the other crops of corn, &c., makes slave labor, at present, a profitable business in Missouri. Slaves bring a high price—from $300 to $1500, according to age and quality. These facts will, perhaps, explain why some of the people hang with so much tenacity to the system; and why they are so desirous of extending it into Kansas.—The soil and climate of that territory are generally well adapted to the culture of hemp.

The Albany Evening Journal, one of the strongest Whig papers of the North, but always an able and consistent defender of the rights of freedom, (regarded in fact as the peculiar organ of "Sewardism,") has the following remarks relative to the Anti-Nebraska State Convention soon to assemble at Saratoga:

Having found the Whig party of the North, on all occasions, and in every emergency, the most efficient and reliable organization both to resist the aggressions of slavery and to uphold the cause of freedom, we concur cordially with the Steuben Courier, that it is best, now and ever, "for the Whig party to stand by its colors."

There are, however, occasions and questions which warm the agencies into action. This wanton and wicked Nebraska swindle stirs the indignation of thousands who are not ordinarily active as partizans, but whose sentiments and sympathies prompted the Saratoga movement. It contemplates, we understand, a gathering of *freemen*, irrespective of party, to give embodiment to expressions of dissent to this shameful violation of compacts and compromises which secured a portion of the territory purchased of France to *freedom*; and to aid, as far as may be, the election to Congress of representatives who will labor fearlessly to *repeal* that swindling statute. The assembling of an enlightened, patriotic convention, with such views, cannot fail to exert a salutary influence.

But that convention can in no manner or sense interfere with the duties or lessen the responsibilities of the Whig Party. The cause of freedom may be essentially aided by auxiliary efforts. By combining the suffrages of all who deplore the Nebraska outrage, an almost unbroken vote in the next House of Representatives might be secured. This surely is an object worth aiming at.

TRADE IN CALIFORNIA. For several months past every steamer from California has furnished the mercantile community with advices of the over shipment of merchandise of almost every description, to that newly settled State, and by the last arrival we receive the same discouraging advice. The warehouses are filled with goods, many of which are or will be entirely worthless before there is a demand for them. We are glad to observe that there were but few arrivals at San Francisco for the fortnight ending July 15, the whole number being but five. But even with this small number and an overstocked market, but little, if anything, can be realized over and above first cost by the shippers. These warnings have tended to check, in a great degree, shipments to that port, for the present at least. The high rates of storage, insurance, &c., which they have been obliged to submit to, may also have had its effect, but when it was well known that they have a stock of nearly all kinds of merchandise sufficient to meet the demands of her population for six months or a year, why continue to keep the market overstocked?—Boston Traveler.

BOSTON, July 17th. *Fatal Railroad Accident.* At Danvers this forenoon, the train from Manchester ran into a wagon containing two young ladies, instantly killing one and so mangling the other that she cannot survive. Both were daughters of Frederick Howes, Esq., of Boston.

Japan and British Colonies. The Senate, in executive session, Saturday, confirmed Commodore Perry's treaty with Japan.

It is thought the reciprocity treaty with Canada will be voted on this week.

FREEMEN IN KANSAS. In the Cincinnati Columbian we find the following letter, written by Mr. S. N. Wood, a Free Soiler who has emigrated to Kansas. He writes from Independence, Mo., June 27:

"We arrived here about a week ago, for the purpose of settling in Kansas and contributing our mite to prevent Slavery claiming the fairest part of creation. We have made one short trip over into the Indian country, and satisfied ourselves that a man can get almost just such a home as he pleases. I never saw richer land in my life; and it appears inexhaustible. We saw among the Shawnee Indians some of the best farms that we ever saw in our lives. The only drawback is the slavery question. Missourians have already flocked to this Territory by hundreds; many slaves are already in the Territory, and more are coming. Northern men were ordered off; lynching was freely talked of, even by United States officers, at Fort Leavenworth, merely because they happened to be born North of Mason and Dixon's line. Some Northern men were actually driven off; others were frightened away. All manner of lies were told, and misrepresentations made, in order to keep Northern men away.—But now the charm is broken. A dozen families of Free Soilers drove ahead, and have commenced a settlement upon the Kansas River.—A meeting is called on July 8, of those friendly to making Kansas a free state. Emigrants from Iowa, Illinois and Indiana are arriving daily. Ten days will not pass until the cabins of at least two hundred opponents of slavery will be in progress of construction. A few more, and we shall be invincible. All we want is, for every Northern man—every Northern family, who have their minds on this Territory to come on at once. This slavery question must be met and decided *now*. Let slavery once get a foot-hold and she will be hard to route, while a proper demonstration now will scare all the slaveholders out of the Territory, and prevent more slavery from being brought here. Let me therefore say to one and all, who ever design coming here, to come at once; no time is to be lost; you will find every assistance to get good claims rendered to you, that is possible."

If among the many brilliant inventions which distinguish this age, some one would invent a plan of living without food, he would render a most acceptable and timely service to the human race. There has never before been a time when all the articles of food were so costly, and when the expenses of living pressed so hard upon men of moderate means. If the advance in the prices of food continues, we shall ultimately, in spite of the high price of labor, be reduced to something like the condition of the old world, where, in many countries, the masses think themselves fortunate if they can taste animal food once a week.

But however vain it may be to look for any reduction of the prices of animal food, there is certainly in this country room for great improvement in the economy of its preparation and consumption. In France, where they have carried the art of cooking to its greatest perfection, they know how to get more nourishment, and often in a more agreeable form, out of a smaller and inferior piece of meat, than we can out from a larger piece from the choicest part of the animal. The French soups are celebrated all over the world, and bad imitations of them are current enough here. A French soldier will live on his soup, as well as an Englishman upon his roast beef, and at a much lower cost. The meat that we throw away from every dinner would make a better dinner for a Frenchman. We must learn this art, for economy in food is becoming as necessary to us as to any people.—Providence Journal.

POISONOUS COLORED CONFECTIONERY. The "Lancet" commissioners in reporting the result of their investigations respecting colored confectionery, express their surprise at the extent to which deadly and virulent poisons are daily made use of by the manufacturers of these articles. One hundred and one samples were analyzed; and of the yellows, seventy contained chromate of lead and colored gamboge; seventy-nine of the reds contained cochineal, red lead, and bi-sulphuret of mercury; eight of the browns contained ferruginous earths, either vandyke, brown, umber, or sienna; two of the purples contained Prussian blue and cochineal; thirty-eight of the blues contained indigo, Prussian blue, Antwerp blue, and a sulphate of sodium or aluminum; nineteen of the greens contained Brunswick greens, consisting of a mixture of Chromate of lead and Prussian blue, verditer, or carbonate of copper. Scheele's green or arsenite of copper. The above colors were variously combined in different cases, three and even four poisons occurring in the same parcel of confectionery. In four of the samples the colors were painted on with white lead or carbonate of lead; thirteen samples were adulterated with hydrated sulphate of lime; seventeen samples were adulterated with wheat flour, three with potato flour, and one with arrowroot.

A gentleman and wife left Albany lately for a summer jaunt of a week or two, taking with them a large trunk closely packed with wearing apparel. After a short tarry at Niagara Falls, they dropped down to Lewiston to overhaul Lake Ontario and the St. Lawrence, and *there* they lost all sight and trace of the trunk. Of course they could progress no farther under such circumstances and in hot weather, so they got home again as soon as possible in pursuit of a "change of linen" under difficulties. But their perplexities did not cease with their access to their wardrobes. Bridget had made good use of her opportunities in their absence, and beside picking up all the loose change, stray purses, &c., that she could find, has decamped with every dress the lady had left at home.

WASHINGTON, JULY 14th.—The Japanese treaty was read and referred in the Senate yesterday. The main provisions of the treaty have been correctly set forth in the published accounts. There is reason to hope that the effort, which is to be made by several Senators to have the discussion upon the Reciprocity treaty take place in open Senate, will be successful.—Prospects for the ratification of the treaty continue to improve.

The Niagara Democrat relates, on the authority of several persons who were said to be cognizant of the fact, that a young woman of that place, while returning home a few evenings since, was arrested in her walk by an irresistible impulse and compelled to go in another direction to the railroad, where she found a child asleep, lying across one of the rails of the road. She had barely time to snatch it from the track before the train came dashing by.

Holloway's Pills, for the cure of Coughs, Colds, and Asthmatical Complaints.—These admirable Pills are the most efficient remedy ever discovered, for the cure of coughs, colds, and asthma. Some of the most obstinate cases of such disorders, together with affections of the chest, yield to their curative powers. They speedily remove any accumulation of phlegm, whereby the respiratory organs are permanently relieved, and ultimately a sound and perfect cure is effected, therefore the asthmatical person suffering from a tightness of the chest, a difficulty of breathing, or a bad cough, should have recourse to these well known Pills, to ensure a radical cure.

FLOUR.

100 BBLS. Empire; 100 bbls. Telegraph, landing from schr Del Norte, and for sale by WM. JEWELL,
jy18 At No. 2 Exchange St.

The new and splendid ship Bosphorus, built by Messrs. Chas. Cooper & Co. is now finished and ready for sea. Any of our citizens who wish to examine her can have an opportunity any time previous to Thursday, when she will leave for St. John to load for Liverpool. The build, finish and conveniences of this ship are of the most creditable character. She is emphatically a Bangor ship, and ought to be a subject of pride to all our people. She is pronounced to be equal to any ship built in any part of the country. No effort has been spared to make her complete and thorough in every part. We shall probably have a more particular description of this vessel in a few days.

As an illustration of the enterprise of her builders, we may say that during the sixteen working days since the launching of the Bosphorus, they have laid the keel, timbered out, and partly sheathed a ship of 600 tons, on the same spot. At the same time, another ship of 1000 tons has been rapidly forwarded alongside of her.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

From Washington.

WASHINGTON, July 17.

SENATE. The resolutions were passed, giving employees of the Legislative Department an increase of 20 per cent. on compensation, and prohibiting hereafter unusual extra allowances.

Mr. Badger's motion to reconsider the vote passing the Pacific Telegraph bill, was rejected.

The Homestead bill was taken up. The Senate refused to strike out the 8th section, 19 to 25.

HOUSE. The House refused to suspend the rules in order to enable Mr. Henn to report from the committee on public lands the Senate bill granting lands to Iowa for a railroad, by 70 to 70.

Mr. Faulkner moved a suspension of the rules to enable him to report from the military committee the Senate bill regulating the pay of the army, and increasing its efficacy by retiring disabled officers. Rejected, 90 to 64.

The rules were suspended for Mr. Fenton to report from the committee on commerce a bill creating Dunkirk a collection district, and constituting the same place a port of entry. The bill was passed.

Mr. Dickinson made an effort to introduce a resolution authorizing the select committee to whom was referred the subject of the superintendency of the armories, to visit Springfield and Harper's Ferry, during the recess, to make examinations.

The House went into committee of the whole on the Army Appropriation Bill. The amendment pending was to repeal so much of the former act as authorizes the military superintendency of the National Armories, and providing for the appointment of well qualified civilians at either of those establishments.

Messrs. Vansant and Davis of R. I. spoke in favor of the civil superintendency, and Mr. Stuart for the military.

Mr. Skelton offered a resolution providing that the manufactures at Springfield and Harper's Ferry be discontinued, and authorizing the Secretary of War to contract for a supply of arms, and appropriating $200,000 for the purpose. Rejected.

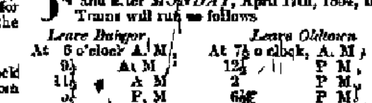
KENNEDY'S



The Greatest of the Age!

MR. KENNEDY, of Roxbury has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two Bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst cases of erysipelas

One to two bottles are warranted to cure all humors in the eyes

Two bottles are warranted to cure running in the ears and blotches in the hair

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ring worm

Two to three bottles are warranted to cure the most desperate case of rheumatism

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as that a common weed, growing upon the pastures, and along old stone walls should cure every humor in the system. yet it is now a fixed fact—If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases, but not yours He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years and have been regulated by it Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to

No change of diet ever necessary Eat the best you can get, and enough of it,

ROXBURY, Sept 10, 1853.

It had its origin in the Forests

THE RED MAN, endowed by Nature, has superior skill in the art of compounding healing Medicines. This fact has been acknowledged by thousands who have used

Dr. Hart's Genuine Indian Salve.

Every mother with children, and all heads of families should keep a box in the house and have it handy in case of accident.

Indian Salve cures Ulcers or Fever Sores.

Mr Ezekiel Ward of Gorham, Me who for many years has been troubled with a very bad Ulcer or Fever Sore upon his ankle which has at times been so inflamed and swollen that the skin would crack open and the pain so intense as to deprive him of rest day or night, has, by the use of the Indian Salve, so far recovered as to be able to labor upon his farm with perfect ease and comfort.

Mr Andrew Hodgdon, of Falmouth who has used the Indian Salve for a very bad Scrofulous Sore, says it gives him more comfort than all the remedies he has ever applied It relieves the inflammation, subdues the pain, and enables him to attend to his business as usual.

Indian Salve cures Piles.

A man in Buxton, was entirely cured of a severe attack of this painful disease, by a few applications of this wonderful Salve Another Gentleman in Portland, says it gave him instant relief in a case of Piles of long standing

Indian Salve cures Scald Head.

A boy in Lovell was cured of Scald Head, by the Indian Salve after many other ... A ... in Sebago was cured of this awful malady after four boxes of All-Healing Ointment, and many other remedies had been used, with no good results A child in Portland was cured of a very bad case of Scald Head by using one box,

Indian Salve cures Poisoned Limbs.

Two boys in Scarborough were cured of bad sores on their legs occasioned by being severely poisoned.

Indian Salve cures Burns

A gentleman in Portland had his hand very severely burned with phosphorus, and after trying many remedies with no good effect, was entirely cured with one box of Indian Salve In cases of Burns, if the Indian Salve is applied immediately, it draws out the fire and prevents blistering, and heals at once.

Indian Salve cures Cuts and Bruises.

Mr. E. G. Osgood had his thumb nail torn out by the roots, and says on applying the Indian Salve the pain subsided and healing took place at once.

Indian salve is the best article in the World for Boils.

Mr D. G. Plummer, 14 and 15 Market Square, Portland, used the excellent Salve for Boils, and says in subduing inflammations it is superior to any Salve he ever used—Mr. Joseph Maines used it for a very painful Boil, and says there is no remedy equal to it for painful sores—Prof. Crouch, of Portland, used this celebrated Salve for a bad arm, and says it is a remarkable remedy So says every one that uses it.

Indian Salve is highly spoken of by all who have used it.

In no case does it fail to subdue inflammation and pain, and restore to perfect soundness the most angry looking wound.

DR. ORDWAY'S

HUMOR DISCOVERY!

DR ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success He has often been urged by his friends, and those who have tried it and know its efficacy, to put it within the reach of all He has now added to it an Herb discovered in California by *Dr Kelley*, which makes it the most wonderful remedy for

Humors of All Kinds,

Liver Complaints and Chronic Diseases

The virtues of this Herb were first made known to Dr Kelley by an Indian while attending a patient sick with that terrible disease the California Erysipelas and Liver Complaint The effect was miraculous, curing the man in a few days

The natives when bitten by a rattle snake or rabid animal, resort to this Herb for a cure.

Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them

If you have Erysipelas, three to five bottles will cure it.

If you have Scrofula, three to seven bottles will cure it

Three to six bottles will cure Salt Rheum

One or two bottles will cure Pimples on the face.

Two or three bottles will cure Scaly Eruptions and Scald Head

One to three bottles will cure Nursing Sore Mouth

One to three bottles will Cleanse the System of Biles.

Two to five bottles will cure Rheumatism.

Three or four bottles will cure old running Sores and Ulcers.

One or two bottles will cure Barber's Itch

One to three bottles will cure Canker in the Mouth and Bowels

For Liver Complaints and Jaundice,

Its effects are new and wonderful, removing obstructions from the Liver opening the pores of the skin, carrying off the morbid matter, relieving the side and all-gone feelings of the stomach, and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA

A fair trial will convince you there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence has been troubled with cancer for years—by taking two bottles says she is now quite well

FOR COSTIVENESS,

One gentleman says that it was the only medicine which cured him

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms.

A young man was sick so much with Asthma he had to leave college three bottles cured him, and he has now resumed his studies

One lady in Salem was perfectly cured of *Periodical Sick Headache* by the use of two bottles

Mr Williams, of Lawrence had humors in his Eyes for years was cured by the use of the Humor Discovery and Blood Purifier

For Chills and Fever, Mercurial Diseases, Taints in the system, it stands unrivalled, almost measure where the system is much deranged it will cause disagreeable feelings at first, but continue its use as the indications are favorable It is purely vegetable, and its compound and proportion are such that the effect is perfectly satisfactory and safe

More evidence of the wonderful effects of the Humor Discovery and Blood Purifier—Bad Case of Erysipelas and Liver Complaint cured.

BANGOR, Me, Nov 1853.

Messrs. Ordway & Wadleigh—I feel it my duty to let you know how your medicine has benefited me. ... LIVER COMPLAINT for some time and was at last taken with erysipelas

I had heard your medicine spoken of and made up my mind to give it a fair trial.

I bought a bottle and commenced taking it At first it made me feel quite disagreeable, sometimes a sick stomach ... and frequent sharp pains in my side chest and shoulder

I lessened the quantity from the directions, and took for a few days less than a table spoonful a day I began to feel better and then took the full dose until I took the bottle I began to feel like a new man

I have now taken the second bottle about half up—and feel quite well all ... and ... much has not been so well for a long time

My low spirits and despondency have entirely left me and I feel again like myself. With many thanks for your medicine, I am yours truly JAMES ANDREWS

DR. ORDWAY—Dear Sir: I answer to your inquiry relating to the effect of the medicine prescribed by you in my case. I am very happy in saying that I AM CURED, and can earnestly recommend your medicine as a specific for that most disagreeable disease, Jaundice with which I have suffered at intervals for years.

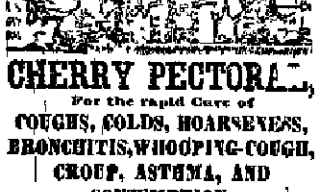
AYER'S



CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

WE invite the attention of the public to the Certificates appended below, and bespeak for them that candid consideration which their honest frankness deserves.

Men in such stations as many who voluntarily bear witness to the efficacy and value of CHERRY PECTORAL, do not wantonly trifle with or distort facts nor overstate their convictions. Judge then, whether this is not the medicine to trust when you must have relief for the throat or lungs, judge too whether every family ought not to have it by them as a safeguard against the everywhere prevailing enemy, which steals with fatal frequency upon almost every flock, and carries off the lamb from many a home?

Jackson C H, Jackson C'ty O., 20th Nov, 1852.

DR. J C AYER—Sir The CHERRY PECTORAL is much inquired after Several of our best Physicians have used it three of them in their own case, and always with the happiest effects. The numerous patent medicines always before them, lead to incredulity in regard to every new remedy and it is only after undoubted evidence of value in any article, that any thing like a general confidence can be excited

The unrivalled excellence of this combination of agents, (in the Cherry Pectoral) proved beyond cavil by results that under their own observation, has compelled medical men to proclaim abroad its usefulness. It is beyond all doubt the best gradual remedy we have for the Pulmonary Affections of this climate at the same time sedative and expectorant—a rare combination of properties.

In the hope that it will prove its own reward, I subscribe myself Respectfully your ob't servant,

JAS. H C. MILLER, M D

Allegan, Mich., 10th Jauly, 1852

Dear Sir—No one, no not one—man, woman, or child—can be found to deny that the Cherry Pectoral is all that it claims to be. There is much used in this vicinity although not known until recently. The community should know its virtues. Yours truly,

JOHN B. KELLOGG, M D

What yet remains to convince the most incredulous that the *Cherry Pectoral* is all that it purports to be, viz an unequalled remedial agent for all diseases of the Throat and Lungs. The experience of years, has proven it to be such, and we submit it to the people, believing that its virtues will fully maintain its reputation

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers Gout, Humors, Nervousness Irritability, Inflammations Headache, Pains in the Breast, Side, Back and Limbs, Female complaints, &c, &c Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails besides it soon generates serious and often fatal diseases which might have been avoided by the timely and judicious use of a good purgative This is alike true of Colds Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

PROF VALENTINE MOTT the distinguished Surgeon of New York City

DOCT A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts

IRA L MOORE, M. D, an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice

H C SOUTHWICK Esq, one of the first merchants in New York City

C A DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial

These Pills, the result of long investigation and study are offered to the public as the best and most complete which the present state of medical science can afford They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician and as he could not properly judge of a remedy without knowing its composition I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces If however there should be any one who has not received them, they will be promptly forwarded by mail to his address

Of all the Patent Medicines that are offered how few would be taken if their composition was known! Their life consists in their mystery I have no mysteries

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known Many eminent Physicians have declared the same thing of my Pills and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach bowels liver and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease

Being sugar wrapped they are pleasant to take and being purely vegetable no harm can arise from their use in any quantity

For minute directions see the wrapper on the Box.

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS for the cure of Asthma Consumption Bronchitis, Coughs, Colds and all Lung Complaints by Medicated Inhalation Dr CURTIS'S HYGEANA or INHALING HYGEAN VAPOR and CHERRY SYRUP has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past ever known to man It is producing an impression on diseases of the Lungs never before witnessed by the medical profession [See certificates in hands of Agents]

The Inhaler is worn on the breast, under the linen without the least inconvenience the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor, passing into all the air cells and passages of the lungs that cannot possibly be reached by any other medicine Here is a case of

ASTHMA CURED.

BROOKLYN N Y Dec 10 1853

For about eight years I have been severely afflicted with the Asthma for the last two years I have suffered beyond all my powers of description months at a time I have not been able to sleep in a bed getting what rest I could sitting in my chair My difficulty of breathing and my sufferings were so great at times, that for hours together my friends expected each hour would be my last During the past six years I have had the aid and attendance of some of the most celebrated physicians but have received no permanent benefit, and but little relief At length had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup At the time I first obtained it, I was suffering under one of my most violent attacks and was in great distress almost suffocating for want of breath In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup I was relieved in a great measure from the difficulty of breathing and had a comfortable night I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is—try it

CONSUMPTION CURED.

NEW YORK, Dec 27th, 185

I came to New York on the ship Telegraph, my native place is St John, New Brunswick; when I reached this city my health was very poor, had a bad cough raised a good deal of matter, which was frequently mixed with blood, had pain in my left side and was very weak and emaciated My friends and physician pronounced my case Consumption, and beyond the reach of medicine I accidentally heard of Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life Soon after wearing the Inhaler I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured I still wear the Inhaler, as the use of it is rather pleasant and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it JOHN WOOD

REBUILD THE BROKEN CONSTITUTION

The derangements of the system leading to nervous disease and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific ... few however, may be enumerated viz neuralgia, tic doloreaux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will indisposition to move ... after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation and all complaints growing out of a free indulgence of the passions and all barrenness that does not proceed from organic causes beyond the reach of medicine

TO THE MISGUIDED

These are some of the sad and melancholy effects of the early habits of youth viz Weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions general debility, symptoms of consumption &c

BEFORE CONTEMPLATING MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness indeed without these the journey through life becomes a weary pilgrimage the prospect hourly darkens the view the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with your own.

PARENTS AND GUARDIANS

are often misled with respect to the causes and sources of diseases in their sons and wards. How often do they ascribe to other causes the wasting of the frame, idleness, palpitation of the heart indigestion derangement of the nervous system, cough and symptoms indicating consumption when the truth is, that they have been indulging in a pernicious though alluring practice destructive both to mind and body
